English - good  
Ukrainian - native  
Russian - excellent

## INTERESTS

Sports, cooking, travelling

# Artur Okhotnichenko

## Software Developer

## ABOUT ME

Enthusiastic Software Developer with a keen eye for design and a passion for crafting user-friendly applications. Experienced in Web Development and possessing basic knowledge in mobile applications, utilizing technologies such as TypeScript, React, Next.js, React Native, and Node.js, alongside various UI libraries. Skilled at collaborating effectively within teams. Eager to broaden my expertise as a Full Stack Developer and contribute to challenging projects.

## WORK EXPERIENCE

### Software Engineer

Topcon Positioning Systems | Espoo

Sep 2022 - Apr 2024

At Topcon Positioning Systems a leading provider of precise positioning products and solutions for various industries including surveying, construction, agriculture, civil engineering, and mapping my responsibility was to contribute to the development of an internal design system UI library based on Web Components with the aim design and development across various projects and departments within the company. This involved collaborating closely with design, testing, and backend teams to ensure seamless alignment with all application requirements and company objectives. In addition to developing the UI library, I contributed to the development of a Dashboard application using the Internal UI library, React, TypeScript, Styled Components, and other third-party libraries. Working effectively within a team of 6 developers, I translated design concepts into functional applications, addressed bugs, and ensured all task requirements were met. By maintaining open communication and fostering collaboration, we were able to deliver high-quality solutions that met the needs of our users and stakeholders.

### Software Developer

Emmy Clothing Company | Helsinki

Apr 2021 - Aug 2022

At Emmy, I contributed to the development of a web store specializing in selling pre-owned premium clothing and accessories, with a mission to give clothes a new life, reduce waste, and contribute to environmental sustainability. As a member of the development team, I collaborated with the marketing and storage departments to ensure alignment with company goals and user needs. My role involved adding new features, enhancing functionality, and resolving issues to improve the overall user experience. Working closely with a team of four developers, I helped build both the main web store and a Dashboard app for managing store operations. Leveraging technologies such as Next.js, TypeScript, Styled Components, Apollo Client, GraphQL, Shopify, MongoDB, Firebase, and Contentful CMS, I ensured seamless operation and introduced innovative features to meet the diverse needs of our users.

### Construction Worker

KI-Group, NBC-Group | Kokkola, Norway

Feb 2019 - Nov 2019

### Agriculture and Farm Worker

Finland, Norway

Jun 2014 - Feb 2019

### Logistics Manager, Head of Warehouse

Meat Processing and Packing Factory "Tvin" | Ukraine, Kiev

Dec 2009 - May 2014

## EDUCATIONAL PROGRAMS

### Full Stack Development

Integrify Academy | Helsinki

May 2020 - Jan 2021

During a five-month full-time intensive Full-Stack development program, I gained and polished expertise in React, Material UI, Accessibility, JavaScript, TypeScript, Redux, Apollo Client, Node.js, Express, MongoDB, Mongoose, GraphQL, REST API, Docker, and AWS.

Following the program, I acquired six months of hands-on experience in a professional setting. I contributed to developing a mobile application for Integrify's client YARD Hostel, using React Native, TypeScript, Redux, Contentful CMS, and AWS Amplify. I collaborated with a team of four developers.

Afterward, I independently designed and developed a fully responsive Progressive Web Application (PWA) called ProBlog using Figma. The app was implemented with Next.js, TypeScript, Tailwind CSS, Contentful CMS, and Firebase. You can check it out [here](#).

## Web Development for beginners

Nov 2019 - Apr 2020

### Integrify Academy I Helsinki

In a 6-month full-time Web Development program, I learned HTML, CSS, SASS, BEM, Git, GitHub, JavaScript, React, Redux, Gatsby, Contentful CMS, Figma, basics of Node.js, and Express.

As part of the program, I worked on a group project for a client. We built a responsive web app with a blog section. I focused on creating the UI design, styling, making it responsive, adding animations, building components, and helping with functionality. I collaborated with a team of three developers.

During my studies, I made a personal portfolio web app. It's a responsive site made with React, JavaScript, SCSS, and EmailJS. It shows my web development skills and work. You can see it [here](#).
